

International Symposium on Green Science 2014

**Media Hall, Asakura-campus,
Kochi University
13th December 2014**

Organized by Divisions of
Interdisciplinary Science and
Life and Environmental
Medicine Science

13:30~13:40 Opening remarks

13:40~14:20

“Local wisdom based green innovation”

Dr. Wasin Wongwilai

(Cheng Mai University, Thailand)

14:25~15:05

“Ligand-Modified Copper and Silver Nanoparticles:
Highly efficient Catalysts in Organic Synthesis”

Prof. Xiaoquan Yao

(Nanjing University of Aeronautics&Astronautics, China)

15:05~15:45

“Icephobic/anti-icing potential of the superhydrophobic Ti_6Al_4V
surfaces with hierarchical textures”

Prof. Jie Tao

(Nanjing University of Aeronautics&Astronautics, China)

15:55~16:35

"Electrochemistry and Electrocatalysis of Polyoxometalates"

Dr. Jie Zhang

(Monash University, Australia)

16:35~17:15

“Green Chemistry in a Changing Landscape”

Prof. Steven J Langford

(Monash University, Australia)

17:15~17:25 Closing remarks
